Make My Website did a marvellous job in creating my website and I am pleased to be able to recommend their Company to other businesses who are looking to have a personalised web site to promote their business. My skills in web site design are very limited but Make My Website guided me through it all and I found them very helpful and especially patient with me and my lack of that skill.

We've ended up with a great clear and user-friendly website. The people at Make My Website were very friendly, willing to accommodate our needs and flexible. We've had many positive comments about this new promotional and informative site
